

GLOBAL PERSPECTIVES - YEAR 7

Globalisation

Is it better to live in a global world?

In this unit, you will consider what it means to be a global citizen. You will consider how your everyday decisions can have an impact on the world and the people in it. You will also suggest ways of living more responsibly.

Poverty & Inequality

How do people get out of poverty?

You will consider the causes of poverty and why it is important to care about the wellbeing of others around the world. You will consider whether there is equality in Britain and what role charities play in meeting the needs of others in Britain and globally.

Education

Should education be free for all?

Education is very important and you will consider the life changing impact of a good education. You will investigate Ruby Bridges and Malala Yousufzai and consider why they fought hard for an education.

Trade & Aid

Do we have a responsibility to help others?

This unit considers the short-term and long-term benefits of both charity and fair-trading practices. You will consider the work of philanthropists and then justify whether we all have a responsibility to care for others.

Migration

Is Britain a welcoming country?

You will consider the history of migration to the UK and whether or not migrants have been welcomed. You will explain the difference between being a migrant and a refugee and use empathy to assess the treatment of people seeking asylum in the UK.

Health

Are we healthier than ever before?

Health is something which is often taken for granted. In this unit, you will consider health before the creation of the NHS and the significance of having a National Health Service. You will compare common causes of ill health in the 1800s with causes today.
