

Participation in Physical Education

Participation within PE lessons is compulsory. If a student is injured or ill they are expected to bring a note with them explaining the problem, the note must be from a parent/guardian. The student may be able to take part partially in some of the activity or alternatively act as an umpire/referee. Students also take part in the analysis of other performers, giving specific feedback in helping others to improve.

Students **must** bring kit regardless; they need to be in suitable clothing to carry out the role their teacher has given to them. Correct kit must be brought every week or students will be expected to borrow Academy kit (a demerit is issued for any kit missing).
