

You will need to use all of the 5 R's throughout the challenges in order to ensure that you complete them to the best of your ability. Think of all the different skills employed in Learn to Learn lessons, and try to re-use these skills as often as possible. You will often be asked to work in groups, try to take on different group roles for each challenge and use the SOP to ensure that the tasks are a success.

## Responsibility

will be the key R on the Farm Visit, remember you are ambassadors for the Academy and a responsible attitude will be necessary the whole time.

## Resourcefulness

will be the key R during the Willow Workshop, you will have to use the materials in an imaginative and creative way to come to interesting conclusions.

## Resilience

will be the key R for the Solar-Powered Car challenge, you may come across difficulties and draw backs, but will have to persevere in order to succeed.

## Reasoning

will be the key R for the Fuel Cells challenge, you will have to persuade the islanders that this is the fuel source of the future.

## Reflection

will be the key R for the final House of the Future challenge, you will need to bring together all of the knowledge from the previous challenges in order to complete this final task.
